

For: Wheel Loaders Type: Forks

Applications: Construction Pipeline Wood/Forestry

Features At-A-Glance

- Unique forks accommodate various sizes of pipe and pole.
- Replaceable hardened steel pins and bushings at all pivot points.
- Uses 2 cylinders (vs. 4 on competition) for less maintenance on hoses, fittings, cylinder packings, hinge points, etc.
- SIMPLE vertical roller track frame for vertical adjustment up to 28".
- Heavy duty forged tines.
- Clamps open to a vertical position.
- Our unique bell crank design simplifies clamp adjustments.
- Pin-on & coupler hookups available.
